Introduction

There are 648 'letters' within Accession 1156 Item C 1. This number is made up of Letters (453), Memoranda (156), Departmental Orders (28), General Orders (7), Circulars (3) and General Duties (1).

How to Use the Index Numbers

The pages of the Letter Book are numbered, but these numbers are not required in order to find correspondence.

Most of the letters are numbered: the first commencing at 1. For reason unknown 116 of the letters scattered through the Letter Book were not numbered (many being memoranda and including a cancelled letter), but on nearly all occasions when numbering recommences it is evident the un-numbered letters have been 'counted' as though they were numbered (see below).

However some errors were made: 4 numbers were missed and 4 were double counted.

Three letters appear twice. On their first entry the duplicates appear out of their correct numerical and date sequence — they are dated in August, although immediately preceded by letters dated in July. After the entry of the three duplicates, the numbers resume appropriately at the proper July date. The three duplicate letters are written in subsequently at their proper August date. This suggests that the Letter Book was made up at intervals (at least at times) rather than on a more frequent basis.

In this Index un-numbered letters are given an alphabetic suffix. On this basis the actual Letter Book sequence (showing the duplicated, extra and missing letters) is as follows:

1	to	93
93A, 93B, 93C (ie 93C is an extra number)		
96	to	116
		116A
118	to	149

*Notes

In the Theme-topic Index convict/convicts references are listed under the heading 'Convicts', unless it is evident a reference is to a 'Ticket of Leave' person/s, who are listed under that heading.

In the letters of Accession 1156 Item C1 the distinction between these categories is often unclear and any general consideration of transported persons and/or local convicts needs examine both the headings, Convicts and Ticket of Leave.

Addressee Index

The following letter numbers list all those to whom letters or memoranda were addressed.

Addressees are **not** entered in the Names Index unless the name is also in the text of the letter.

Some memoranda were addressed to a depot or not specifically addressed, but the name of the intended recipient was clear (i.e. 'x will please carry out...'). In this Index all such clearly intended recipients of memoranda are listed in the Names Index.

All memoranda are listed in the Index to Signatories, memoranda etc (p. 6)

Letter numbers with 'strikethrough' (ie 265) are duplicates.

Names Index

Titles without names have not been indexed.

Most names in the Letters lack initials or given names.

Idiosyncratic spelling and poor writing add to identification difficulties.

Both initials and RN [Register Numbers] have been ascribed where possible.

Names in *italics* are those who appear to be convicts or prisoners.

Names in normal type are settlers, soldiers or government staff.

Convicts [in *italics*] may have been employed by Government at some time and therefore be shown both in normal type as well as italics.

'nt' (not transported) against a name shows the person appears to be a convict, but one who does not appear in the lists of transportees, even though the Letters show an RN.

An absence of initials or RN means identification to be uncertain without further inquiry.

Note: addressee names are not listed in this Index.

See Addressee Index introduction.

Names with an * are included in Barker, D J [2000], *Warders and Gaolers : A Dictionary of WA Prison Officers' 1829-1879*, privately printed.

All Identifications should be checked.
