Names Index

Titles without names have not been indexed.

Names in *italics* are those who appear to be convicts or prisoners: names in normal type are settlers, soldiers or government staff.

Many names in the Letters lack initials or given names and idiosyncratic spelling, poor writing and the condition of the record add to identification difficulties.

Both initials and RN [Register Numbers] have been ascribed where possible, with the spelling of convict names following the 'official passage lists'.

See also the Introduction.

Convicts with two RN, have the earlier convict Register Number in square brackets [] the more recent conviction Register Number in 'rounded' brackets ().

An absence of initials or RN (or both) means identification to be uncertain without further inquiry.

'nt' (not transported) against an italicised name shows the person appears to be a convict, but one who does not appear in the lists of transportees, despite having an RN; therefore probably a 'Colonial Convict'.

Note: addressee names are not listed in this Index:

see the Addressee Index (page 26).

For Signatories to the letters see Signatory Index (page 39).

Names with an * are included in Barker, D J [2000], *Warders and Gaolers: A Dictionary of WA Prison Officers' 1829-1879*, (Privately Printed.)

All Identifications should be checked.
