Names Index

Titles without names have not been indexed.

Many names in the Letters lack initials or given names.

Idiosyncratic spelling and poor writing add to identification difficulties.

Initials and convict RN (Register Numbers) have been ascribed where possible. Most RN are given in the Letters.

Names in *italics* are those who appear to be convicts or prisoners.

Names in normal type are of settlers, soldiers or government staff.

Some convicts (in *italics* below) were employed by Government at some time and may be shown both in normal type and *italics*.

Convicts known to have received a Conditional Pardon are in *italics* with RN.

Names with an * are included in Barker, J (see page 33).

Absence of initials or RN means identification is uncertain or unknown without further enquiry.

All identifications should be carefully checked. Especially

1. the same name with an entry in both *italics* and in normal type.

2. the same name with an entry with initials and an entry without them.
