Introduction

There are 1333 'letters' within Accession 1156 Item C 37.

Eight letters are struck out as 'error' or 'cancelled'. Eight of the letters are designated as Circulars and 603 as Memoranda — twenty-five of which Memoranda were also Circulars.

The basis for categorising items as Memoranda is not clearly apparent.

Virtually all the letters have a code, applied on a basis that is unclear, as apparent 'solutions' appear inconsistent.

The Letter Book has no page numbers, neither has it letter numbers.

Consequently in order to find an Index reference it is necessary to utilise both the date and the code. Once a series of letters of a given date has been located, it is then possible to look through them to find the specific code.

Letters appear to have been written in groups, so that 30 or more letters can bear the same date and so occupy a number of pages, thereby making both the date and the code essential to the rapid finding of an Index reference.

Some letters have their date omitted. In order to assist in their location, in the Indexes a date has been assigned to those letters without a date: these dates appear in the Indexes in square brackets — [].

The great majority of the letters are in proper date order. However 7 letters are out of sequence and this fact is indicated in the Index by their date & code being in **bold type**.

The 7 letters in bold type in the indexes can be located by noting the date/codes of the letters prior and/or after the letters out of sequence as shown below.

Names Index

Titles without names have not been indexed.

Names in *italics* are those who appear to be convicts or prisoners: names in normal type are settlers, soldiers or government staff.

Many names in the Letters lack initials or given names and clerical error, idiosyncratic spelling, poor writing and the condition of the record add to identification difficulties.

Both initials and RN [Register Numbers] have been ascribed where possible, with the spelling of convict names following the 'official passage lists'.

Convicts with two RN, have the earlier convict Register Number(s) in square brackets [] and the more recent conviction Register Number in 'rounded' brackets ().

An absence of initials or RN (or both) means identification to be uncertain without further enquiry.

'nt' (not transported) against an italicised name shows the person appears to be a convict, but one who does not appear in the lists of transportees, despite having an RN; therefore probably a 'Colonial Convict'.

Note: addressee names are not listed in this Index: see the Addressee Index (page 5)
For Signatories to the letters see Signatory Index (page 18).

Names with an * are included in Barker, D J [2000], *Warders and Gaolers: A Dictionary of WA Prison Officers' 1829-1879*, (Privately Printed.)

All Identifications should be checked.
