Introduction

The 3045 letters of Cons 488/32 comprise some 520 letters from Fitzgerald, the remainder being from his replacement. Kennedy tended to express his personal views less, writing more directly but less interestingly. Kennedy, like his predecessor, continued to promote development despite insufficient funds and/or labour, with an administration deficient in competence.

How to Use the Index

The pages of the letter book are not numbered. The letters are numbered and commence with 1694 to 1704. These letters appear to be a continuation from 488/31 which concludes at letter 1466. If so, some letters are lost.

The initial eleven letter numbers (1694-1704) are later replicated in a new number series and the initial (or continuation) letter numbers are marked in the Indexes with an * .

The new number series has some omissions of number, some extra 'a' numbers and some repeated numbers, but letters may be found readily using the letter numbers; but note the use of * above.

1694	to	1704	1165a

*Notes

In the Theme-topic Index convict/convicts references are listed under the heading 'Convicts', unless it is evident a reference is to a 'Ticket of Leave' person/s, who are listed under that heading.

Any general consideration of transported persons needs examine both headings, Convicts and Ticket of Leave.

The Theme-topic Index contains a section entitled "Administration: general". This heading lists those letters of which the import is unclear, generally because reference is made to other correspondence not within Cons 488/32.

Addressee Index

The following letter numbers list all those to whom
letters were addressed, excluding the Comptroller-General.
1082 letters were addressed to the Comptroller-General. He took leave
from 26 February 1856 until 1 February 1858 and c. 918 letters
were addressed to the Acting CG, although many letters in the leave period
were 'incorrectly' addressed to the CG.

Names Index

Titles without names have not been indexed.

Most names in the Letters lack initials or given names.

Idiosyncratic spelling and poor writing add to identification difficulties.

Both initials and RN [Register Numbers] have been ascribed where possible.

Names in *italics* are those who seem to be convicts or prisoners.

Names in normal type are of settlers, soldiers or government staff.

Convicts [in italics below] may have been employed by Government at some time and therefore be shown both in normal type as well as italics.

Absence of initials or RN means identification to be uncertain without further inquiry. Convicts [both 'Colonial' and from UK] have a full given name [where known] if the RN is unknown.

Names with an * are included in Barker, D J [see page 43].

Identifications should be checked. Particularly:

- 1.** the same name with an entry in both italics and in normal type.
- 2.** the same name with an entry with initials and an entry without them.
